APPOINTMENT OF SUBSIDIARY AS REPRESENTATIVE OF ELDRIDGE ENGINEERING GROUP

The Board of Directors of BH Global Corporation Limited (the “Group”) is pleased to announce that its subsidiary, Oil & Gas Solutions Pte Ltd (“OGS”), has been appointed to represent Eldridge Engineering Group (“Eldridge”) in the Pacific Rim and Far East.

Eldridge is a provider of ventilation and air borne noise control system engineering, design, and equipment for mobile offshore drilling rigs, production platforms, and associated oil / natural gas facilities. Eldridge and its principal engineers are the inventors and patent holders of several proprietary drilling rig related equipment systems including the innovative Eldridge ENJET Engine Exhaust System.

Eldridge is recognized as a leading authority in the specialized area of mobile offshore drilling unit ventilation. A vast majority of the current worldwide fleets of deepwater drillships, semi-submersibles and jack-up rigs have ventilation systems engineered and designed by the company.

Eldridge’s professional staff of engineers and designers has over 150 years of combined experience specific to solving ventilation, air volume control, engine exhaust, dehumidification, dust collection, fire containment, and air borne noise reduction problems on mobile offshore drilling rigs and offshore production platforms. The company has been established for over 60 years with its main office in Houston, Texas.

The Group’s subsidiary OGS provides engineering design, project management and procurement services to the oil and gas industry in the Pacific Rim and Far East and is technically and commercially qualified to represent Eldridge in these regions.

By Order of the Board

Vincent Lim Hui Eng
